

# Kids Like Italian

## NEW ITALIAN LANGUAGE CLASSES

I created and developed an extensive program structured in different levels, according to the kids age and their knowledge of the language.

Raising multilingual children, is the best gift a family can give their child.

Children of the same age group are together, but any child who is ready for the next level is welcome to join another group.

**Primi Passi** (*First Steps*) is a basic course, which aims to familiarize children with the sounds of the Italian language, focusing on their ability to listen and comprehend the meaning of the words.

**A come Alfabeto** (*A as Alfabet*) is an intermediate course in which the children will practice and enrich their vocabulary. This course will focus on listening and communication skills. In addition to this, the children will be able to understand and perform simple command.

**Parliamo!** (*Lets talk!*) is a more advanced level. This course will focus on writing, reading and grammar will be introduced.

The lessons are designed to engage the students and to encourage their enthusiasm to learn. Learning with movement and games, is the cornerstone of successful education at young age, therefore hands-on materials, flashcards, games, songs, movement, poems and audio books will be presented with the lesson plan.

### Classroom structure

Class size is a minimum of 5 students and a maximum of 10. Preschool, elementary and middle school classes are available. Classes are formed with students in compatible age and language experience groups.
